SUMMARY

Full-stack developer with 6+ years of experience designing, building, and deploying scalable web applications and RESTful APIs. Strong in React, Node.js, and Python/Django, with hands-on experience in PostgreSQL, AWS, and CI/CD. Known for writing clean, well-documented APIs and delivering features end to end.

EXPERIENCE

Senior Full-Stack Developer — CloudNest Software, Seattle, WA — Feb 2022 – Present

- Designed and built 40+ REST API endpoints in Node.js (Express) and Django REST Framework serving 500K+ daily requests.
- Implemented JWT/OAuth 2.0 authentication, role-based access control, rate limiting, and API versioning.
- Documented all APIs with OpenAPI/Swagger, cutting new-developer onboarding time by 35%.
- Built React + TypeScript dashboards consuming the APIs; improved page load time by 45% with caching and code splitting.
- Optimized PostgreSQL queries and added Redis caching, reducing average API response time from 420 ms to 140 ms.

Full-Stack Developer — Orbit Digital, Portland, OR — Jun 2019 – Jan 2022

- Developed e-commerce features across a React front end and a Python/Flask REST API backend.
- Integrated third-party APIs (Stripe, Twilio, SendGrid) for payments, SMS, and email notifications.
- Wrote unit and integration tests with Jest and Pytest, raising coverage from 40% to 85%.
- Containerized services with Docker and set up CI/CD pipelines using GitHub Actions.

Junior Web Developer — Brightside Studio, Remote — Jul 2018 – May 2019

- Built responsive websites with HTML, CSS, JavaScript, and Bootstrap for 10+ small-business clients.
- Created simple CRUD APIs with Express and MongoDB to power client admin panels.

PROJECTS

- **TaskHub API** — Open-source REST API (Django REST Framework, PostgreSQL) with JWT auth, pagination, filtering, and Swagger docs. 900+ GitHub stars.
- **ShopLite** — MERN-stack e-commerce app with a Node/Express REST API, Stripe checkout, and an admin dashboard.
- **Resume Analyzer** — Django web app with an API that parses uploaded resumes and scores them against job postings.

SKILLS

Front End:	React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux
Back End:	Node.js, Express, Python, Django, Django REST Framework, Flask
APIs:	REST, JSON, GraphQL, JWT, OAuth 2.0, OpenAPI/Swagger, Postman, API versioning
Databases:	PostgreSQL, MySQL, MongoDB, Redis
DevOps/Tools:	Git, Docker, AWS (EC2, S3, RDS), GitHub Actions, Linux, Jest, Pytest

EDUCATION

B.S. in Computer Science — University of Washington — 2014 – 2018
